

Supporting Patients in Rhode Island

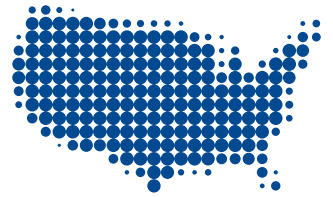

4 out of 10

Nearly four of every 10 Rhode Islanders will develop cancer sometime during their life

2nd Most Common

Colon cancer is the second most common cause of cancer in men and women combined

1+ Million

There are more than one million colon cancer survivors in the United States

WE'RE HERE FOR YOU!

Blue Hope Financial Assistance Program

We're committed to helping you overcome the barriers to screening and to face your treatment head on. Whether you're struggling to pay your rent, fill your prescriptions or put food on the table, Blue Hope Financial Assistance helps with your bills so you can take care of yourself. For qualifying individuals, Blue Hope Financial Assistance will cover the cost of a screening test **or** provide a \$300 one-time financial stipend to help cover screening and treatment related expenses.

Patient & Family Support Navigator Program

Our Certified Navigators will guide you through finding financial help whether you're going through treatment or in need of a colonoscopy. We have a Bilingual Certified Patient & Family Support Navigator on staff to answer any questions in Spanish.

Financial Resource Guide

Our Support & Financial Resource Guide lists helpful organizations and financial programs for individuals and families going through cancer.
